

NAGARAJ KALBURGI

B.Tech Computer Science & Engineering | Aspiring Software Engineer

Email: kalburginagaraj98@gmail.com Phone: +91 9380739311 Location: Ballari, India

CAREER OBJECTIVE

Motivated Computer Science Engineering student with strong competence in Python, C++, Java, and Data Structures. Seeking an entry-level software development opportunity to contribute to organizational IT operations while continuously building scalable technical solutions.

FEATURED PROJECTS

Workpulse – Attendance & Productivity Analytics

Frontend / Web

- Designed and built an intuitive analytics dashboard managing employee attendance, work hours, and daily productivity metrics.
- Implemented comprehensive CRUD functionality for seamless adding, updating, filtering, and managing employee records.

Data Structures & Algorithm Suite

DSA & OOP

- Engineered custom implementations of Binary Trees, BSTs, Linked Lists, Circular Queues, and Priority Queues.
- Implemented optimal searching and sorting algorithms (Binary Search, Bubble, Selection, and Insertion Sort) using robust OOP practices and recursion.

ACHIEVEMENTS & ACTIVITIES

- Smart India Hackathon:** Selected for the Internal Hackathon Round for innovative software problem-solving.
- Competitive Coding:** Active participant in university programming contests and technical coding symposiums.
- Technical Initiatives:** Engaged consistently in algorithmic problem solving and core development practice.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.

Nagaraj Kalburgi

EDUCATION

B.Tech in CSE

Kishkinda University, Ballari

CGPA: 9.05

Expected Grad: 2028

TECHNICAL SKILLS

Programming:

C, C++, Java, Python

Core CS & DSA:

Data Structures, OOP, OS, Networks, DBMS

Databases & Web:

SQL, HTML, CSS, JavaScript (Basics)

Developer Tools:

Git, GitHub, VS Code

KEY COURSEWORK

DSA

DBMS

OOP

DAA

Computer Networks

OS Basics

KEY STRENGTHS

- Analytical Problem Solving
- Quick & Self Learner
- Team Collaboration
- Clean Code Practices
